

# Let's Go on a Field Trip!

## Announcing the School Bus Field Trip Scholarship

**What it is:** Through the generosity of many Pueblo based businesses, the Steelworks Museum is proud to offer a field trip school bus scholarship to participating schools that choose to bring their classes to the museum for field trip experiences.

**Who is eligible:** Any school in Pueblo City Schools, Pueblo District #70 or outside school districts may participate. Contact the Steelworks Museum curator for more information (719) 564-9086 ext. 108.

**What to do:**

1. Make arrangements with the Steelworks Museum curator for a date you would like to bring your class to the museum for a field trip experience
2. Make arrangements with your principal and district bus department to arrange to come on the decided upon date and time
3. Arrive at the museum for your field trip experience
4. When the statement arrives from the district busing department, have your school secretary email or fax a copy of the statement to the museum. Our bookkeeper will then issue your school a check for the amount of the school bus for reimbursement. This reimbursement fund will only cover the cost of the bus, bus driver and gas (not the substitute teacher or other associated costs).
